COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

BUILDING APPROVALS

SOUTH AUSTRALIA

JUNE 1963

SCOPE

This bulletin shows the number and value of "New Dwellings", "Other New Buildings", and "Additions and Alterations", approved in South Australia from May 1961 to June 1963 and gives details of the type of dwellings approved in the Adelaide metropolitan area during the same period.

The statistics relate only to buildings as distinct from the construction of roads, bridges, railways, earth works, water storage, etc., and have been compiled from (a) particulars listed on returns from local government authorities of permits issued to private persons and organizations for building in areas subject to building control, (b) particulars, furnished on the same returns, of building known to be projected or to have been started in areas beyond such building control but within the general jurisdiction of such authorities, and (c) details of contracts let or expenditure authorized by governmental and semi-governmental authorities shown on returns furnished by these authorities. See also Note (e), Table 5.

DEFINITIONS

VALUE: The values shown represent the estimated cost when completed (excluding cost of land) of new buildings and of additions and alterations to existing buildings.

NEW BUILDINGS: Additions of £5,000 and over to existing buildings (other than houses) are regarded as "new" buildings and are included in the figures shown in Table 2.

PRIVATE and GOVERNMENT: Building is classified as "Private" or "Government" according to ownership, e.g. the majority of homes built by Government housing authorities are classified as "Government" even though some are intended to be sold on completion.

COMMENT

For purposes of comparison it should be borne in mind that the volume of building approvals is affected from month to month by the incidence of large projects such as blocks of flats, hospitals, multi-storey office buildings, etc., and also by the administrative arrangements of local government and semi-governmental authorities.

During the three months ended June 1963 the number of dwellings approved for private owners totalled 2,425, an increase of 520 on the figure of 1,905 for the previous three months and 602 more than the 1,823 approved during the three months ended June 1962; value of other new buildings approved (Private and Government combined) was £4,675,000, which was £785,000 less than for the previous three months and £331,000 less than for the corresponding three months ended June 1962; value of all building approved was £16,786,000, an increase of £2,709,000 on the figure for the previous three months and £1,693,000 more than for the three months ended June 1962.

Section 1

The first part of the document discusses the importance of maintaining accurate records. It states that without proper documentation, it is difficult to track progress and identify areas for improvement. The text emphasizes the need for consistency and thoroughness in record-keeping.

Section 2

The second part of the document focuses on the challenges faced by organizations in implementing new technologies. It highlights the resistance to change and the lack of necessary skills among employees. The text suggests that training and support are crucial for successful adoption.

The third part of the document discusses the importance of communication in project management. It states that clear communication is essential for ensuring that all team members are on the same page and that the project is progressing as planned.

The fourth part of the document discusses the importance of risk management. It states that identifying and mitigating risks is essential for ensuring the success of any project. The text provides a framework for assessing and managing risks.

The fifth part of the document discusses the importance of quality control. It states that maintaining high standards of quality is essential for ensuring customer satisfaction and the success of the organization. The text provides a framework for implementing quality control measures.

(a) Includes "Home Units". (b) According to material of outer walls. (c) Includes also Brick Veneer, Concrete, and Composite.

(d) Mainly weatherboard. (e) Prior to July 1961 the information shown in this table was compiled solely from returns from local Government authorities and included permits granted for the construction of houses etc. for Governmental Housing authorities. From July 1961 compilation has been as indicated in paragraph 1 on page 1 of this bulletin.
